Only Pokemon and YuGiOh cards are serviced by us. If we handle the grading for the client, there is a 20% surcharge. Clients are responsible for both shipping and return costs (<https://www.effortlex.com/product-page/psa-shipping-returning-cost>), as well as any insurance declared on the forms, which is non-refundable. If the client uses the PSA official website, the client must abide by their terms and conditions, and we are not liable for anything that occurs during the process on their website and client grading procedure because we do not charge or profit from it.

The client may declare the maximum value based on the value of your card. For instance, if the client used "Value Service," the maximum declared value would be \$499.00. The insurance rate is 2% of the declared value, which means that if the client declares a card for \$499.00, the client will pay an insurance cost of 2% of \$499.00 = \$9.98 per card. Minimum Card Grading: Minimum Card Grading refers to the number of cards that must be graded in order to receive that service. So, if the client chooses Value Service, the client must grade at least 10 cards. In this case, the most client can pay for card insurance is \$9.98 per card or \$99.80 for all cards. Insurance protects the client if the card is lost or damaged during the PSA's transit or grading process. the client will only receive insurance for the card that is lost or damaged, such as if one of the ten cards clients send is damaged by PSA. the client will receive a \$499.00 insurance payment.
